Pierre BEAUPOIL appointed as Vice-Director for Development

CTC, worldwide leader in quality assurance, consultancy and training for footwear, leather goods and glove industries, pursues its international development.

Pierre BEAUPOIL has been appointed as Deputy Director for Development as of 1 July 2010.

After having successfully launched the first CTC Asian subsidiary in Hong Kong from 1993 to 2003, he has headed the opening and the development of CTC laboratories in Shanghai and Dongguan until now.

The dedication and commitment of his teams have enabled to ensure CTC business development and to obtain this year the accreditation for the Audit activities under ISO 17020 and Laboratory testing under ISO 17025 by the CNAS, the Chinese National Accreditation Service.

He will now be in charge of the development of international CTC activities, new projects and key client follow up programs.

Pierre is a post graduate degree from the ENSEM of Besançon (France) in Micro-Mechanics & Materials. He is also a holder of a Master in Materials.
