

Thickness (class II)

Objective

The purpose of this determination is to check leather thickness.

Principle

The test consists of using a standardised device to measure leather thickness. The result corresponds to the leather thickness in mm.

Type: [Physical and mechanical test](#)

Standards: [EN ISO 20344 §6.1](#) / [EN ISO 20345 §5.4.2](#)

Product: [Footwear](#)

Criteria: [Mechanical risk](#) / [PEE](#)

Component: [Upper](#)
