

## Glove cleaning

### Objective

Ensure that gloves retain their properties after the recommended number of washing cycles and under the conditions indicated.

### Principle

If care instructions are provided, performance tests should be carried out on new gloves and after the maximum recommended number of cycles and following the cleaning instructions indicated.

Performance levels are given by the lowest results obtained before and after washing.

Type: [Physical and mechanical test](#)

Standard: [EN ISO 21420 § 4.3](#)

Product: [Gloves](#)

Criteria: [PEE](#)
