

Glove sizes and dimensions

Objective

The test permits to verify if the sizes of gloves are defined with respect to the sizes of the hands they are to fit.

Principle

The test consists in measuring the maximum length of the glove lengthwise (the glove being flat).
The result corresponds to the length conformity according to the intended size.

Type: [Physical and mechanical test](#)

Standard: [EN ISO 21420 § 5.1](#)

Product: [Gloves](#)

Criteria: [PEE](#)
