Opening of CTC Dongguan new laboratory

CTC, the leather, footwear, leather goods and glove leading global resource providing quality assurance solutions, continues its international expansion with the opening of its new physical and chemical testing laboratory in South China, **CTC Dongguan**.

CTC Groupe reinforces its presence on the Chinese market with three specialized laboratories located in strategic sourcing area: Hong Kong, Shanghai and Dongguan.

With a total surface of 1.500 sqm, **CTC Dongguan** is located in the new business park called Songshan Lake Science & Technology Industry Park which offers great access and working conditions. Operating at the heart of the Dongguan footwear and leather goods production zone, CTC will offer conveniently close services with a physical and chemical laboratory offer (REACH tests for Europe, Restricted Substances List for the United States), an inspection and audit office for the South of China.

CTC Dongguan is run by Antoine BARBAR, Operational Consultancy Manager and Charlie ZHU, Marketing & Sales Manager - China.

CTC Dongguan activities will be presented next September during the fairs Moda Shanghai (China), Accessoire Avenue (France), North East Apparel and Footwear Materials Show (USA) and Le Cuir À Paris (France) on CTC booths*.
